- ☐

NOTES

- ★ The Airbnb should have an extra set of sheets/bedding.
- ★ All items restocked must be provided, buying the items will be an extra fee.
- ★ Each cleaning will be checked over after completed as well as video/photo evidence will be provided before and after each clean to ensure host is satisfied with the work.
- ★ A walkthrough before the cleaning begins will be done to check any damages from previous guests.
- ★ Deep cleans are a different category and are recommended if it is the properties first clean. This means the inside of appliances like ovens will be degreased and tough mildew or stains will be removed as well
